

Bridgend Aging Well Voluntary Sector Network Meeting

Terms of Reference

Aims

The Bridgend Aging Well Network has been created to provide voluntary organisations and community groups, who work or have an interest in the welfare of older people, with the opportunity to have a voice and a greater involvement in partnership working (with other third sector groups, the Local Health Board and Local Authority).

Objectives

The purpose of the meeting is to facilitate:

- Networking opportunities.
- Information sharing.
- Regular involvement in consultation and reviews.
- Sharing of successes and examples of good practice; both locally and nationally.

Membership

Membership is open to voluntary organisations and community groups operating within the boundaries of Bridgend County Borough, with an interest in the welfare of older people.

Colleagues from the Local Health Board and the Local Authority will occasionally be invited to attend part of the meeting to talk to the group about their area of work. Presentations will be made to promote discussion and enable active consultation with the local voluntary sector.

Meetings

The Bridgend Ageing Well Network will meet quarterly. The agenda and previous minutes will be sent out at least a week before the date of the next meeting.
