Our mission

- Interaction with the other projects
- Looking at the full picture

Things to bear in mind

- Working with LGBT+
- The alphabet soup
- No assumptions

We exists because:

- Historical lack of trust in services
- Everybody's journey is different
- Talk to the individual and get your services right, first time!

The 3 E's:

Enable

People have access to groups that operate to meet their individual needs.

Empower

People improve their knowledge and confidence and gain new skills for engagement.

Engage

The end result! People are able to engage with local services and are part of community life.

How do we facilitate this?

- Professional forum
- Peer group sessions
- Working together at community events

Education (SRE)

Primary Care

Emergency Accommodation
